Commissioning of the PAGAP solar power plant in France (5 MW)

Voltaia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energies, announces today the commissioning of the PAGAP (Parc d'Activité de Grenoble Air Parc) solar power plant in metropolitan France

The PAGAP plant (Parc d'Activité de Grenoble Air Parc) is a 5 MW photovoltaic solar power plant located in Saint-Etienne-de-Saint-Geoirs, in the Auvergne-Rhône-Alpes region.

The power plant, which construction was announced in February 2018¹, benefits from a 20-year contract for difference effective from the plant's commissioning.

As for all of Voltaia's own projects, the operation and maintenance of the site will be managed in-house.

The plant is equipped with circa 16,700 panels, with a 300 Wp unit capacity, and the electricity produced will cover the consumption of approximately 4,000 people.

This project, located on a ZAC ("Zone d'Aménagement Concerté" - joint development zone) next to Grenoble airport enables the upgrade of an artificialised land.
