

## Commitment for the continuous improvement of the Quality Management

Voltaia Group in the fulfillment of its mission as a producer of electricity from renewable energy sources, recently has widened its activities and strongly believes in the necessity of establish and maintain a Quality Management System, according to the ISO 9001.

Some subsidiaries have already a Quality Management System implemented, and it is the case of Voltaia Portugal (former Martifer Solar S.A), Voltaia Italia (former Martifer Solar Srl) and Voltaia Greece.

As a Chief Executive Officer, I am committed to adopt an ethical, socially responsible business model and I seek the continuous improvement of the Quality Management System within the Voltaia Group. I commit myself to define and provide the sufficient resources to keep an organization which:

1. Takes the time to fully understand our Clients' needs;
2. Complies with the applicable requirements, defined with Clients, and other national or international standards and regulations;
3. Implements and controls the compliance of these requirements in our products, services and organization;
4. Communicates clearly and regularly with all stakeholders, such as, Clients, Shareholders and Employees;
5. Promotes the vocational development of its employees and guarantee that their skills are appropriated to the activities they perform;
6. Promotes the participation of the employees in the objectives assumed by the Group;
7. Reduces the cost of non-quality;
8. Involves not only the entire Group's employees but also suppliers and services providers that cooperate with Voltaia in its different activities and initiatives in respect to the above principles and commitments.

Periodically, objectives and targets will be defined for the relevant functions and levels within the organization, consistent with these Policy principles and commitments.

For the three coming years, I have decided to improve and implement a Quality Management System to all geographies, setting the priority on:

- Maintain the Certification in subsidiaries that already have a Quality Management System in place
- Promote a Quality Culture in the other geographies and start the implementation of the requirements of the Quality Management System;
- Extend the scope of Certification to other countries and/or activities.

I have instituted a Quality Organization dedicated to the implementation and improvement of Quality, which I have placed under the direct responsibility of Marie-Odile Lavenant, Head of Finance of the Group, who directly reports to me.

This constitutes my personal commitment as Voltaia's Chief Executive Officer.

I count on each and every one to fully contribute to the improvement of the Quality Management System within the Voltaia Group.

Paris, April 20<sup>th</sup>, 2017

Sébastien CLERC  
Chief Executive Officer
