Network Operation Center Leader - Myanmar

Working closely with the O&M Manager. Primary duties and responsibilities will include but not limited to:

- To be responsible for managing and coordinating the NOC team. The main aim for this coordination is to ensure that the networking system runs efficiently without interruption
- To keep upper management informed about what is happening in the organization concerning networking
- To oversee the work of junior employees to ensure that system requirements have been properly implemented and procedures carefully followed.
- To be Responsible for informing Management, partners, and peers about network performance and service availability
- Primarily deals with users, customers, vendors, engineers, and the whole technical team
- To coordinate the duty shift table for the NOC operations and carefully allocates staff members (NOC technicians and NOC engineers) on different shift duties for ensuring the whole NOC shift works in an efficient and effective manner.
- To ensure maximum possible service availability and performance
- To monitor Preventive, corrective maintenance and refueling activities and controlling those activities.
- To implement new procedures for controlling over NOC activities and for data processing
- To ensure daily activity reports such as Fueling, PM, and CM and KPI analysis are prepared and submitted to stakeholders.

voltalia
