### **MARKET ANALYST – CDI**

(M/F)

#### **JOB DESCRIPTION :**

The Market Intelligence Team is responsible for collecting, analyzing and delivering strategic information related to all markets covered by the International Development Department in Europe, Latin America, Middle-East, Africa and Asia. The team provides a tailored support to business origination/development through intelligence, analysis, representation and knowledge management.

The Market Intelligence Team is currently composed of

- one (1) Market Intelligence Manager
- one (1) Market Analyst

The Market Analyst reports to the Market Intelligence Manager.

The Market Analyst will perform the following activities:

- Follow-up, collect and report relevant news about markets, competitors and regulations, at national, regional and global levels;
- Collect, analyze, synthesize and deliver in-depth market information, mostly through internal notes and reports;
- Participate in meetings, working groups, conferences and events with partner institutions and industry associations;
- Contribute to the development and the update of internal tools aiming at improving knowledge management;
- Participate in the preparation/submission of applications to tendering processes;
- Support sales activities in the commercial and industrial sector (Client identification and analysis);
- Propose new business ideas and solutions to penetrate markets.
